

Confirmation of attendance of seminar talks within the course „Research seminars in Ocean Physics and Climate Research“

Dear speaker, dear organizer,

With this form, we ask you as seminar organizer/speaker to help the Master's program „Ocean and Climate Physics“ (OCP) at the Institute of Oceanography (IfM).

In the program, we offer a course „Research seminars in Ocean Physics and Climate Research“. In this course students can attend, based on their personal research interests, 24 different seminars and write a short summary about it. The course is supervised by the chair of the examination board (currently: Johanna Baehr, mail: johanna.baehr@uni-hamburg.de).

With this form, we monitor the attendance of the students. With your signature you only certify that the student attended the seminar. The supervision of the subsequently submitted summaries will be done within the OCP Master's program.

Thank you for your help,

Johanna Baehr
